

Environmental Policy

Mercury recognizes its role in environmental protection and is committed to the implementation of practices that:

- ▶ Comply with relevant federal, state, local environmental legislation and regulations governing hazardous materials, air emissions, industrial wastewater discharges, pollution prevention, and environmental protection.
- ▶ Ensure proper handling, use, and disposal of materials with responsible waste management.
- ▶ Substitute the use of hazardous materials with available alternatives when practical.
- ▶ Reduce, reuse, recycle packaging / materials and purchase recycled materials when applicable.
- ▶ Provide a framework for setting environmental objectives.
- ▶ Maintain and continually improve our environmental management system.

Joseph F. Meade IV
President and Chief Executive Officer
