**Mercury Corporation Commitment to Environmental Resource Management
Five Year Environmental Plan for Reduction of Greenhouse Gas**

HAMMONDSPORT, N.Y., June 1, 2022 Mercury Corporation publicly releases its plan to reduce its impact on the environment.

Mercury is pursuing a plan to reduce Scope 1 and Scope 2 Greenhouse Gases of its environmental footprint through a 1% per year reduction over five years.

Mercury reports the following key metrics reported on a FTE (Full Time Equivalent) basis:

Metric	Basis
Scope 1 Air Emissions	16.61 Tons CO
Scope 2 Air Emissions	10.8 Tons CO

About Mercury Corporation

Mercury Corporation offers expertise in designing, engineering, prototyping, and volume manufacturing fully integrated solutions in the Health, Electronic, Defense, Energy, Kiosk RSS, and Transportation Industries.
